GENERAL INFORMATION

USE OF THE AMERICAN MOTORS AUTOMOTIVE PARTS DIVISION PARTS CATALOG

This catalog is arranged in sections, indexes and groups. A complete study of the General Information section and a thorough study of the overall layout of all catalog sections will prove helpful in locating information for ordering.

A group number system of listing parts is used in this catalog and is briefly explained as follows:

Main units of the car are identified by the number preceding the decimal. Example:

ENGINE	1.
COOLING - GRILLE	2.
ELECTRICAL - INSTR. CLUSTER	3.
FUEL-EXHAUST	4.
CLUTCH	5.

Individual parts are assigned a group number. The first number identifies the main unit as shown above. A sub-group number following the decimal identifies parts within the main unit. Example:

Group 1.059 Head, Cylinder: main group "1." indicates an engine part. Sub group ".059" indicates the sub group within the main unit in the catalog. This combination of numbers is termed the "Primary Group." When a part is listed in a group other than its primary group, the part will have the primary group noted in the column provided for it adjacent to the part number. This "Primary Group" is the number under which the part is priced, ordered and stored. All parts should be ordered by their identifing primary group number, part number and noun name.

To locate the listing of a part, find its group number. This can be determined by using any of the following three methods:

1. Refer to the Alphabetical Index.
2. Refer to the Illustrations preceding each major group.
3. If the group is unknown and the part number is known consult the American Motors Automotive Parts Numerical Price List to find the primary group number.

EFFECTIVE POINT OF CHANGE

When chassis or body parts are superseded in production and are only used during part of a model year, reference is made to these changes by notes printed at the bottom of the same page on which the group heading appears. These notes quote the car serial number, car code number, car building sequence number, engine code number or body number at which the change became effective. When these numbers are not available or may confuse, a note containing a physical description will be used.

CAR IDENTIFICATION

Each car produced by American Motors is identified by the following description and location code:

Car serial number is located on a plate attached to the top of the right front wheelhouse panel under the hood. (See page Ge - 9).

Engine code number on the (199) and (232) is stamped on the right upper side of the block. On the (287) and (327) it is stamped on the alternator mounting bracket.

Car code number, car building sequence number, body number, model number, trim number and paint number are stamped on a plate visible when the left front door is open.

CATALOG CHANGES AND REVISIONS

American Motors Automotive Parts Division Parts Catalog Change Notice, form F-1977-R, is published periodically to provide information relative to recent parts listing changes, additions, substitutions, discontinuations, corrections, etc. When possible, these change notices will include revised catalog pages provided to replace those pages on which changes have been made. Any listing, so changed, will be coded with a # in the code column adjacent to the part number. It is imperative that revised catalog pages be inserted into the catalogs affected as soon as received to reflect the current status of parts listings.

ORDERING PARTS BY TELEGRAM

In Canada and certain export countries there is an advantage in the cost of a telegram if code is used in place of part numbers. This no longer applies to Domestic telegrams since the cost of a five digit part number is the same as a five letter code word.

However, there is a decided advantage in using codes for common phrases covering shipping instructions as follows:

YANKL	Emergency order car tied up.
YAM	Ship by Parcel Post.
YANK	Ship by Parcel Post C. O. D.
YAMS	Ship by Parcel Post Special Delivery.
YAMX	Ship by Parcel Post Special Delivery C. O. D.
YAPL	Ship by Air Mail.
YAP	Ship by Air Parcel Post.
YAPLS	Ship by Air Parcel Post C. O. D.
YAPS	Ship by Air Parcel Post Special Delivery.
YAPSL	Ship by Air Parcel Post Special Delivery C. O. D.
YAPSO	Ship by Air Express.
YOPSX	Ship by Air Express C. O. D.
YAT	Ship by Air Cargo.
YATS	Ship by Air Cargo C. O. D.
YEAN	Ship by Express.
YEARN	Ship by Express C. O. D.
YORE	Ship by Freight with Carload.
YOLD	Ship by Freight.
YOLK	Ship by Freight C. O. D.
TYEAN	Ship by Truck.
TYEAL	Ship by Truck C. O. D.

EXAMPLE: YAMS BOULEVARD CHICAGO ONE EACH 311 4850 312 9543 313 2723

When decoded this telegram reads:

SHIP VIA PARCEL POST SPECIAL DELIVERY TO BOULEVARD RAMBLER INC. CHICAGO ONE EACH PART 311 4850 312 9543 AND 313 2723

TELEGRAPHIC INQUIRIES

In the interest of economy, telegraphic inquires between the American Motors Automotive Parts Division, Zones, and Dealers, concerning parts orders, inventories and transfers, should wherever possible make use of the code words covering phrases listed below:

YEA	Refer your or our order number.....
YEB	Our records indicate open account – order specifies C. O. D. Advise.
YEC	Our records indicate C. O. D. – order specifies open account. Advise.
YED	Advise model, trim and serial number.
YEE	Advise – Right or left, front or rear required.
YEF	Advise – Part number, group number and description do not agree.
YEG	Advise – Part number and price do not agree.

Copyright 1965 American Motors Corp.

TELEGRAPHIC INQUIRIES (Continued)

YEH	Advise – No record of part number.
YEK	Advise – Right hand drive part.
YEL	Cancelled – Temporarily unavailable.
YEM	Cancelled – Refer Parts and Accessory Letter.....
YEMS	Cancelled – Refer Service Letter.....
YEN	Cancelled as requested.
YENS	Refer Parts Release and Change Notice.....Dated.....
YEO	Unable to cancel as requested – Shipped.....
YEP	Incorrect material received – check stock.
YER	Verify stock depletion.
YEV	Advise present inventory.
YEW	Advise by wire shipping information or order.....
YEX	Advise date on which following invoices were received and screened against back order file.
YEY	Return at once on Z-269 cheapest way prepaid (Quantity). (Part Number). Mail 1 and 2 cpoies Z-269 attention writer, reference this wire. Advise.
YEYS	Return at once on Z-269 cheapest way prepaid (Quantity). (Part Number). Mail 1 and 2 copies Z-269 attention writer, Reference this wire. Advise. Freight Charges will be allowed.
YEZ	Ship at once via (Carrier), (Quantity), (Part Number) to (Destination). Advise.

When making inquiry by telegram regarding a dealer order, be sure to mention dealer name, city and state, as well as order and invoice numbers if available.

For Example: ***YEW BOULEVARD CHICAGO, 195670***

When Decoded Reads: ***ADVISE BY WIRE SHIPPING DATE OF OUR ORDER #195670 FOR BOULEVARD RAMBLER INC., CHICAGO, ILLINOIS***

The following are examples of codes used primarily by the American Motors, Automotive Parts Division when making inquiry to field Warehouses.

YEA 130987 BOULEVARD CHICAGO YEM 50-5 ENGINE

When Decoded Reads: ***REFER YOUR ORDER NUMBER 130987 BOULEVARD RAMBLER, INC., CHICAGO, ILLINOIS, CANCELLED. REFER PARTS AND ACCESSORY BULLETIN 50-5 FILED UNDER ENGINE GROUP.***

YEZ YAPSO ONE 312 9543, CHICAGO

When Decoded Reads: ***SHIP AT ONCE AIR EXPRESS ONE 312 9543 TO THE CHICAGO WAREHOUSE, ADVISE.***

AMERICAN MOTORS TELEGRAPHIC NUMBER CODE

Following is the American Motors Automotive Parts Division number code which can be used in telegrams in Canada and Export Countries, where necessary, to cover model, serial, parts, service or order numbers.

	COLUMN 1	COLUMN 2
1	B	A
2	C	E
3	F	I
4	G	O
5	L	U
6	M	Y
7	P	EA

Copyright 1965 American Motors Corp.

AMERICAN MOTORS TELEGRAPHIC NUMBER CODE (Continued)

8	R	EE
9	S	OO
0	T	OU

Explanation: The first figure of a number is represented by the consonant in column 1 shown opposite the particular figure. The second figure by the vowel or vowel combination in column 2, and so on, alternating consonant and vowel until number is completed.

An example of a telegraphic parts order using the American Motors Automotive Parts Division Telegraphic number code is given below:

YEAN ONE EACH FABORUT FACOOLOF FAFEPEF

When decoded reads: *SHIP BY EXPRESS ONE EACH 311 4850 312 9543 313 2723*

STANDARD PARTS

Since many attaching parts are available locally, American Motors does not supply them for service. The presence of an N. A. in the code column adjacent to a part number indicates that part is not available from American Motors. If it is difficult to obtain these N. A. parts because of lack of descriptive information, refer to American Motors Standard Parts Catalog F-10063 where standard parts are listed along with their size, material, finish etc.

SHEET METAL PARTS

Service replacement sheet metal parts will be serviced in prime. They are not available from the American Motors Automotive Parts Division Parts Warehouses painted in finished colors.

UPHOLSTERY PARTS

For Upholstery parts, refer separate American Motors Parts Division Parts Upholstery Catalog F-18066.

PRICES

Suggested prices for all parts listed in this catalog are included in a separate American Motors Automotive Parts Division Price List.

SUBSTITUTED OR DISCONTINUED PARTS

The Parts Price List and substituted Parts Reference List indicates pertinent information relative to the status of "All" Catalog Listings.

PARTS NOT LISTED IN THIS CATALOG

Parts not listed in this catalog are to be considered as "Not Available" except for those parts which are listed in separate catalogs such as Upholstery, Attaching Parts ets.

1966 PAINT

The American Motors Paint Code Number is stamped on the body number plate.

Air Dry Repair Enamel, Acrylic Lacquer and Regular Lacquer are available from two sources of supply: Ditzler Color Division of Pittsburgh Plate Glass Co. and Automotive Finishes Division of E. I. DuPont DeNemours and Co. Each of these companies have their own distributors and dealers in principle cities. cities.

When ordering paint from local DuPont and Ditzler Paint Dealers, furnish them with their paint number and color name. Also please specify enamel, lacquer or acrylic.

ABBREVIATION

To conserve space the following abbreviations may appear in one place or another in this American Motors Automotive Parts Division Parts Catalog.

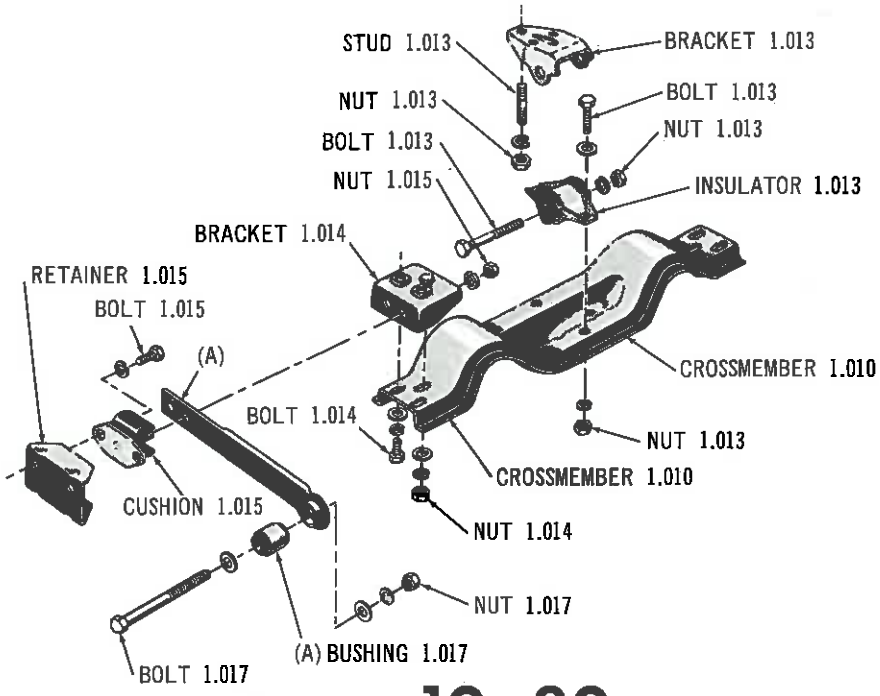

Accel.....Accelerator
Adj.....Adjustable
Alt.....Alternator
Amp.....Ampere
AR.....As Required
Assy.....Assembly
Beg.....Beginning
Brg.....Bearing
Brkt.....Bracket
C.....Hundred
Can.....Canadian
CP.....Complete
Carb.....Carburetor
Comp.....Compressor
Cond.....Condensor
Conn.....Connecting
Ctr.....Center
Cyl.....Cylinder
Defr.....Defroster
Dia.....Diameter
Diaph.....Diaphragm
Diff.....Differential
D/S.....Directional Signal
Dist.....Distributor
Doz.....Dozen
Evap.....Evaporator
Flex.....Flexible
Gal.....Gallon
Gas.....Gasoline
Gskt.....Gasket
Gen.....Generator
Gov.....Governor
Hd.....Head
Hdlng.....Headlining
Hdlp.....Headlamp
Hsg.....Housing
Hydra.....Hydramatic
I.D.....Inside Diameter
Ign.....Ignition
Imit.....Imitation
Incl.....Includes
Instr.....Instrument
Inter.....Intermediate
L/.....Less
LAB.....Less Self Adjusting Brakes
LAC.....Less Air Conditioning
LAE.....Less Alternator Equipment
LAF.....Less Automatic Fan
LAS.....Less Air Suspension
LASC.....Less Automatic Speed Control
LAT.....Less Automatic Transmission
LAW.....Less Adjusting Steering Wheel
LBS.....Less Bucket Seats
LCA.....Less Center Armrest
LCGS.....Less Column Gear Shift
LCV.....Less Convertible
LDB.....Less Disc. Brakes
LDC.....Less Dual Carburetors
LDE.....Less Dual Exhaust
LDJ.....Less Dual Jet
LDS.....Less Directional Signal
LDT.....Less Dual Throat Carburetor
LEEP.....Less Exhaust Emission Pump
LEOW.....Less Electrically Operated Windshield Washer
LER.....Less Electric Regulator
LES.....Less "E" Stick Transmission
LFC.....Less Floor Console
LFFC.....Less Filter Oil Filler Cap
LFG.....Less Fender Guard
LFGS.....Less Floor Gear Shift
LFI.....Less Fuel Injection
LFS.....Less Full Seat
LHE.....With Six Cylinder "L" Head Engine
LHDC.....Less Heavy Duty Cooling
LHD.....Left Hand Drive
LHR.....Less Horn Ring
LHT.....Less Hydramatic Transmission
LIRS.....Less Individual Reclining Seats
LLD.....Less Locking Differential
LLL.....Less Load Leveler
LN.....Lock Nut
LOD.....Less Overdrive
LPB.....Less Power Brake
LPS.....Less Power Steering
LPV.....Less Positive Ventilation
LRC.....Less Roof Cover
LRS.....Less Reclining Seats
LSFC.....Less Sealed Oil Filler Cap
LTS.....Less Tilt Seat
LUT.....Less Ultramatic Transmission
LVL.....Less Vacuum Door Lock
LVT.....Less Vertical Hinged Tailgate
LW.....Lockwasher
LWC.....Less Wheel Carrier
L3S.....Less Third Seat
Mldg.....Moulding
Mtg.....Mounting
N.A.....Not Available
No.....Number
OAC.....Optional Air Conditioning
O.D.....Outside Diameter
OHV.....With Six Cylinder Overhead Valve Engine
OHVA.....With Six Cylinder Overhead Valve Aluminum Engine
OHVC.....With Six Cylinder Overhead Valve Cast Iron Engine
Pkg.....Package
Prop.....Propeller
PW.....Plain Washer
QT.....Quart
Qtr.....Quarter
Rad.....Radiator
RD.....Round
Reg.....Regulator
Reinf.....Reinforcement
Req.....Required
Ret.....Retainer
Rev.....Reverse
RHD.....Right Hand Drive
Sed.....Sedan
Six.....Six Cylinder Engine

Copyright 1965 American Motors Corp.

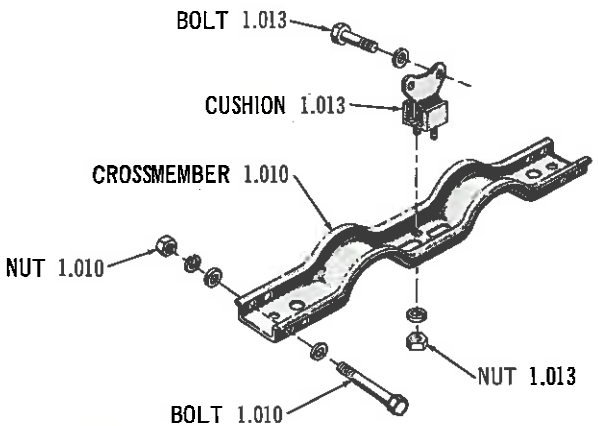

ABBREVIATION

Speedo.....Speedometer
Stab .....Stabilizer
Std .....Standard
Strg .....Steering
Supt .....Support
Susp.....Suspension
Synchro .....Synchronizer
Temp .....Temperature
Therm .....Thermostat
Trans.....Transmission
U .....Universal
V-8.....Eight Cylinder Overhead Valve Engine
Vac .....Vacuum
Vent.....Ventilator
W/ .....With
WAB.....With Self Adjusting Brakes
WAC.....With Air Conditioning
WAE.....With Alternator Equipment
WAF.....With Automatic Fan
WAS .....With Air Suspension
WASC.....With Automatic Speed Control
WAT.....With Automatic Transmission
WAW.....With Adjusting Steering Wheel
WBS .....With Bucket Seats
WCA.....With Center Armrest
WCC.....With Center Cushion
WCGS.....With Column Gear Shift
WDB.....With Disc. Brakes
WDC.....With Dual Carburetors
WDE.....With Dual Exhaust
WDJ .....With Dual Jet
WDS .....With Directional Signal
WDT.....With Dual Throat Carburetor
WEEP .....With Exhaust Emission Pump
WEOW .....With Electrically Operated Windshield Washer
WER.....With Electric Regulator
WES.....With "E" Stick Transmission
WEW.....With Electric Wiper
WFC.....With Floor Console
WFFC.....With Filter Oil Filler Cap
WFG.....With Fender Guard
WFGS.....With Floor Gear Shift
WFI .....With Fuel Injection
196.....195.6 Cubic Inch Displacement
199.....199 Cubic Inch Displacement
232.....232 Cubic Inch Displacement
287.....287 Cubic Inch Displacement
327.....327 Cubic Inch Displacement
WFS .....With Full Seat
W/H .....Wheelhouse
WHDC .....With Heavy Duty Cooling
WHR.....With Horn Ring
WHT.....With Hydramatic Transmission
WIRS .....With Individual Reclining Seats
WLD.....With Locking Differential (Applies To Powr-Lok And Twin Grip Differential)
WLL.....With Load Leveler
WNRS.....With Non-Reclining Seat
W/O .....Without
WOD.....With Overdrive
WPB.....With Power Brakes
WPS .....With Power Steering
WPV.....With Positive Ventilation
WRC.....With Roof Cover
WRS .....With Reclining Seat
W/S .....Windshield
WSFC.....With Sealed Oil Filler Cap
WST .....With Standard Transmission
WTS .....With Tilt Seat
WUT.....With Ultramatic Trans.
WVL.....With Vacuum Door Lock
WVT .....With Vertical Hinged Tailgate
WVW.....With Vacuum Wiper
WWC.....With Wheel Carrier
WWO.....With Wood Overlay
W3S .....With Third Seat
W4B .....With Four Barrel Carburetor
W4ST .....With 4 Speed Transmission

1.020 BLOCK ASSEMBLY, Engine Cylinder (Less Pistons, Rings And Bearings) (Note 1.020-1)

66 01-10-50-80 (Six)	.....	1	320 5432	
66 10-50-80 (V8-287)	.....	1	320 4559	
66 10-50-80 (V8-327)	.....	1	320 3950	

NOTE 1.020-1: When Machining Engine Blocks and Crankshafts it is common practice, if necessary, to machine the Bores .010 oversize and the Main Bearing and/or Connecting Rod Bearing surface undersize .010. Blocks and Crankshafts, so machined, are marked with a three letter code interpreted as follows:

1st. Letter - Size of Bore	A - Standard
2nd. Letter - Size of Main Brg.	B - .010 Undersize
3rd. Letter - Size of Con. Rod Brg.	C - .010 Oversize

Example: An Engine having an .010 oversize Bore, Standard Main Bearings and .010 undersize Connecting Rod Bearings will be coded CAB.
On the V8 Engine, the code is stamped on the date built code tag on the Alternator Bracket.
CAUTION: All Service Blocks and Crankshafts are standard. If your original equipment is not standard it may be necessary for you to order Pistons, Rings, Main Bearings and/or Connecting Rod Bearings to fit.

NOTE 8.001-1: Two Types of Brake Assemblies were used on the 66 18 (Six-LDB). They can be identified as follows:
Type 1: Uses a Bendix Brake Assembly and the self-adjusting mechanism uses a Wire Cable.
Type 2: Uses a Wagner Brake Assembly and the self-adjusting mechanism uses two wire links.

66 15 PBR M/CYL KIT 1 R061 0149

NOTE 8.510-1: Two Types of Power Brake Master Cylinder Assemblies were used on the 66 10-50-80 (WDB). They can be identified as follows:
Type 1: Master Cylinder does not have Diaphragm Type Filler Cover.
Type 2: Master Cylinder has a Diaphragm Type Filler Cover.

NOTE 13.450-1: Two Types of Condenser Cores were used on the 66 01-10-50-80. They can be identified as follows:
- **Type 1: Condenser Core is a McCord Unit. The Compressor To Condenser Outlet is a 90 deg. angle fitting and the Receiver Check Valve does not have a Swivel Nut.**
- **Type 2: Condenser Core is a Modine Unit. The Compressor To Condenser Outlet is a straight fitting and the Receiver Check Valve has a Swivel Nut.**
